

Nanyang Technological University
School of Arts Design and Media (ADM)
Major in Digital Animation
Year 2008-2012

Student Testimony

I confirm that Professor Mark Chavez was one of my professors during my learning at the School of Arts Design and Media (ADM) from year 2008-2012.

It was an honor to have Professor Mark Chavez as one of my professors during my early years of study in ADM. He guided me through digital modeling and helped me develop my love and interest for this area of specialty. He was highly approachable and was always willing to take additional time off to give consultations after classes should the students required them. I was able to learn many skills and tips regarding digital modeling during these consultation times. It was wonderful being able to learn from someone experienced in this field.

I was fortunate enough to be able to work with Professor Mark Chavez as a work-study student for one of his projects. It was during this time that I received the opportunity to discover and develop my organizational skills. This was a life changing discovery, propelling me towards my ambition to becoming a producer in the future. I am truly grateful for the trust and opportunity that Mark provided me when he allowed me to help him with coordination for work-study students. In addition, Mark has always encouraged me, this was super important as it allowed me to gain the strength to keep improving and also to believe in my abilities. What is more amazing is that his help and kindness goes beyond that of school hours, helping graduates such as myself.

He is sure to be there for his students when they need him and Professor Mark Chavez will always be an awesome teacher, professor and mentor to me. I am truly fortunate to be able to have him as my professor in ADM. I would never have been able to achieve what I did without his guidance.

Han Shengyi
Graduate of the
School of Arts Design and Media
